Introduction

Thank you very much for buying the IRADIO 500 CD. In order to let you freely operate the product and fully enjoy the overbalancing happiness it brings you, we have introduced each function of the player in detail in this user manual. Please carefully read this user manual before use and keep for future reference.

If you pass the IRADIO 500 CD on to someone else, make sure to give them all the relevant documents with it.

Intended use

The device has been developed for the receiving and playing back audio data from the Internet or a network, and reception of DAB+/FM radio programs. The device has been designed for private use and is not suitable for commercial purposes.

Package contents

The items enclosed in the packaging box are as follows:

IRADIO 500 CD
Power adaptor
Remote Control
User manual

Safety

General

- Do not drop the device and do not expose it to liquid, moisture or humidity. These might lead to damage to the device.
- If the device is moved from a cold environment into a warmer one, do let it adapt to the new temperature before operate the device. Otherwise, it might lead to condensation and cause malfunctions in the device.
- Do not use the device in the dust environment as dust can damage the interior electronic components and lead to malfunctions in the device.
- Protect the device from strong vibrations and place it on stable surfaces.
- Do not attempt to disassembly the device.
- If the device is not using for a long period of time, disconnect it from the power supply by unplugging the power plug. This is to avoid the risk of fire.
- The ventilation should not be impeded by covering the ventilation openings with items, such as newspapers, table-cloths, curtains, etc.
- No naked flame sources, such as lighted candles, should be placed on the apparatus.
- To maintain the compliance with the WiFi RF exposure requirement, place the product at least 20 cm (8 inches) from nearby persons except when operating the controls.

Compact discs

- Use only Digital Audio CDs which have the symbol .

- DO NOT USE THESE TYPES OF DISC:- Mini (8cm) CDs. Use only full-size 12cm discs. Mini CDs will jam the feed mechanism.
 - Discs which do not have a complete metallic reflection layer. Discs with a large transparent section will not be detected and may fail to play or eject.
 - Disc which are extra thin or flexible. Such discs may fail to feed in or out correctly and may jam the CD mechanism.
- Never write on a CD or attach any sticker to the CD. Always hold the CD at the edge and store it in its box after use with the label facing up.
- To remove dust and dirt, breathe on the CD and wipe it with a soft, lint free cloth in a straight line from the centre towards the edge.
- Cleaning agents may damage the CD.
- Do not expose the CD to rain, moisture, sand or to excessive heat. (e.g. from heating equipment or in motor cars parked in the sun).
- The CD player uses an invisible laser beam. If used incorrectly, this can injure your eyes. Never look directly into the open CD compartment.
- This devices has been classified as CLASS 1 LASER. The corresponding sticker (CLASS 1 LASER PRODUCT) is on the rear of the device.

Power adaptor

- Only use the power adaptor delivered with the device. The socket outlet should be installed near the device and should be easily accessible. Never touch the power plug with wet hands and never pull on power cable when pulling the plug out of the power socket. Make sure the electrical voltage specified on the device and its power plug is corresponding to the voltage of the power socket. Incorrect voltage will destroy the device.

•
•
the
•

Risks associated with high volumes

- Listening the device with headphones, always reduce the volume before put on the headphones. After the headphones are positioned properly, increase the volume to the desired level.

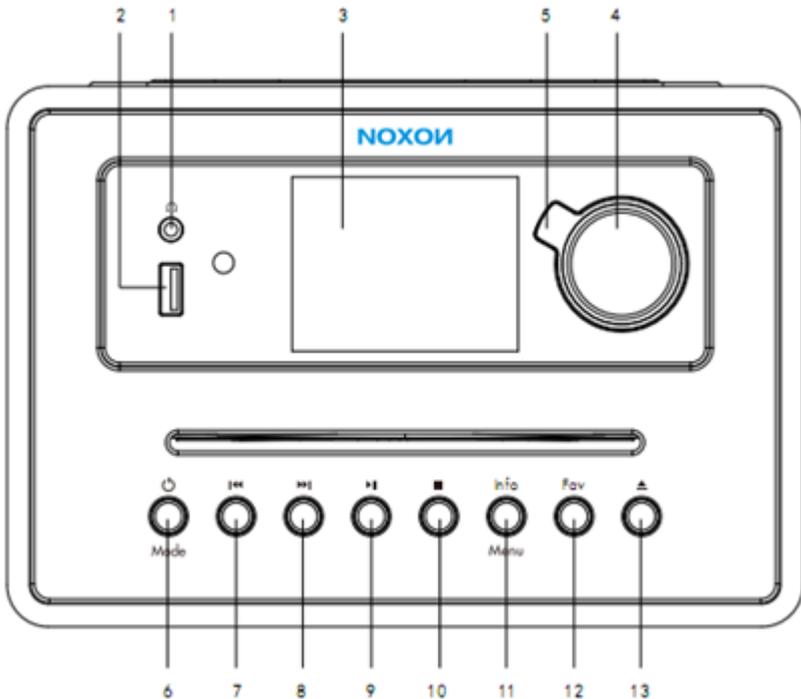

•

To prevent possible hearing damage, do not listen at high volume for long periods.

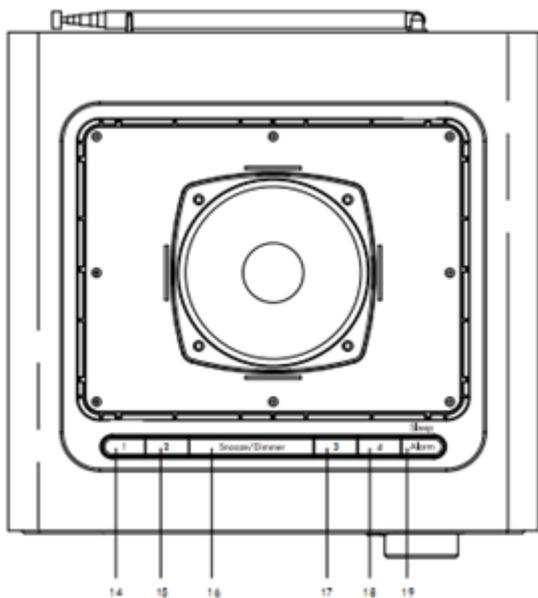

Maintenance / Cleaning

- Always power off the unit when cleaning it.
- Never use any harsh or strong solvents to clean the device since these may damage the surface of the device. Dry, soft cloth is appropriate, however, if the device is extremely dirty, it may be wiped off with a slightly moist cloth. Make sure the device is dried off after cleaning.
- When you are necessary to ship the device, store it in its original package. Save the package for this purpose.

Warranty terms

The warranty period shall commence on the purchase date. Please keep your original receipt in a safe place. This is required as a proof of purchase.

If a material or production fault occurs in this product within 24 months of the purchase date, we shall – at our discretion – repair or replace the product free of charge.

This warranty requires that the defective device has to be sent to the service center together with the original proof of purchase and a brief description of the fault within these 24 months.

If the fault is covered by our warranty, you will receive the repaired product or a replacement device.

The warranty period shall not begin again if the product is repaired or replaced.

Processing of warranty claims

Contact our support (see our website). Have the serial number and the proof of purchase ready. Our support may already be able to solve the problem. If the problem cannot be solved, you will receive instructions on where to send the device to.
